- Rubbish Rescue
- STEM Group Work

Structure and Function:

- Turtle Trouble

How You Can Help at Home?

English Language Arts

■ Urge your child to use logical arguments to defend his or her opinion, explaining reasons why, supported by facts and details.

■ Talk about the news together. Pick one story in the news, read it together, and discuss with your child what it means.

Mathematics

■ Ask your child to compare numbers using phrases like “times as much.” For example, if the family cat weighs 8 lbs. and the family dog weighs 56 lbs., how many times as much does the dog weigh?

■ Ask your child to help you compare fractional amounts — for example, if one recipe calls for $\frac{2}{3}$ of a cup of oil, but another recipe calls for $\frac{3}{4}$ of a cup of oil, which recipe calls for more oil?
